**1 ECTS = 0.6 CAU Credits; 5 ECTS = 3 CAU Credits**

## D. Course Registration Guidelines

Students may register online during the Course Registration Period, through the CAU Course Registration Page (<https://sugang.cau.ac.kr/>).

1. Registration should be completed by students online within the given period (refer from our semester calendar p.1).
2. As registration procedures are computerized, students are responsible for their course selection.
3. Students cannot take courses that have overlapping timings.
4. Every course has limited seats for enrollment.
5. Students may take courses offered by other departments as electives. However, students should present necessary documents (i.e. academic transcript) to enroll in the courses are upper division classes with prerequisite requirements.
6. Students are responsible for completing their own course registration. No credits will be given for courses without proper registration.
7. Students may not add courses that overlap with pre-registered courses shown in the "My Class" tab on the CAU Course Registration System.

## **F. Final Registration (Add & Drop) Guidelines**

Students can modify their initial registration on the CAU PORTAL Registration System for the first 7 days after each semester begins. During the Add & Drop Period, seat availability is very limited so please be careful and check the availability of courses you would like to add before you drop the courses for which you have already registered.

1. Students are allowed to add courses only if enrollment spaces are available.

Enrollment spaces are shown in 4 categories according to the offering department and intended study year of the course:

- ① for students belonging to the offering department with the corresponding study year of the course.
- ② for students belonging to the offering department with a different study year.
- ③ for students belonging to other departments including those in minor programs.
- ④ for students in the double major program.

All international students should refer to the number of remaining spaces shown in categories ①, ② or ③ according to their respective department and major at CAU. If the category student falls under is full, the given course cannot be registered for.

2. If students are unsure about their course selection, it is recommended that the student consults with the lecturer about that course.
3. Students are solely responsible for their registration. Those who receive an F due to registration errors will not be eligible for grade reconsideration petitions at the end of the semester. It is important to be aware of the drop/add and withdraw dates.
4. The university may partially delete or modify students' registration when there is a violation of the rules in registration.
5. No courses can be added after the final course registration period, with no exceptions.

## **G. Add & Drop for Korean Language Courses**

Adding Korean Language and Korean Studies courses offered by the International Office can be done via CAU Course Registration webpage. Adding these courses to the CAU Course Registration System will be restricted during the regular course registration period to control the number of regular CAU students registering for the courses. Students can add and drop courses on Korean Studies during the final registration period on the CAU Course Registration System.

## **H. Confirming Registration**

1. Students are strongly recommended to check if their online course registration is correctly reflected in the “수강신청” section -> “Course registration” menu, in the CAU Course Registration system.
2. Students should also check for class status changes, including time changes and cancellations.
3. Students will not receive credits if their registration on the Web does not reflect the courses they actually take, even if they attend classes and take the midterm and final examinations.
4. Students can view the course descriptions through:

[http://cautis.cau.ac.kr/TIS/websquare/websquare.html?w2xPath=%2FTIS%2Fstd%2Fusk%2FsuskSif005\\_eng.xml](http://cautis.cau.ac.kr/TIS/websquare/websquare.html?w2xPath=%2FTIS%2Fstd%2Fusk%2FsuskSif005_eng.xml)

## I. Course Withdrawal Guidelines

During the 4th week of the semester, students are permitted to withdraw from courses by deleting courses on the Course Registration System. **Courses may not be added and only course withdrawals are allowed.**

1. Students must complete course withdrawal by themselves by confirming the final course list for the semester on the Course Registration System during the designated withdrawal period.
2. If a student formally withdraws from courses and the registration record confirms the withdrawal, the transcript will contain no indication of that course.
3. Each course listed on a student's "수강신청" -> "Course Registration" menu after the withdrawal period will appear on the student's transcript.
4. Due to the university policy, course withdrawal is only available for undergraduate courses, **not graduate-level courses.**

## J. How to find your classrooms (In case classes are offered offline)

1. After logging into your portal and selecting "수강신청", you can direct yourself to the "My Class" or "Course Registration" page. The course information will be listed for each enrolled class.

A+	Over 95	4.50	97
A	94-90	4.00	92

### 1. Academic Standards

There are 9 grade-levels. Grades are made on a curve and are only given to a certain proportion of students in the class; A+ and A are 15-30%, and B+ and B are 30-35%, etc. However, this grading system does not apply to certain courses and international exchange students.

### 2. Related Regulations

Points earned by attendance are limited to 10% of the total grade. Students are responsible for keeping their attendance from the first day of class and need to inform their professor in advance if they are unable to attend. Students who take either a midterm or a final exam, and submit an Exam Non-compliance Report due to medical, military and other reasons may earn a course grade based only on the exam they take.

※ It is the student's responsibility to talk to the Lecturer/Professor and confirm the specifics of the grading policy.

※ It is the student's responsibility to confirm credit transfers with their home University and Chung-Ang University.

## L. Course (Teaching) Evaluations

\*Period : Fall – Dec 1st to Dec 29th/ Spring semester - June 1<sup>st</sup> to 29<sup>th</sup>

1. Anonymous course (teaching) evaluations are conducted using the PORTAL System.
2. It is mandatory for students to complete the evaluation of their courses.
3. **Students who fail to complete the course evaluation during the designated period will be restricted access to their final grades until the end of the Grade Confirmation Period, and therefore will lose the opportunity for grade appeals/adjustments.**
4. Students' evaluation of courses & teaching staff is confidential. The university will not share any identifying information with any instructor or teaching assistant.

## M. Grade Confirmation & Review

Students may access their course grades through the PORTAL System to confirm the given grades. Should there be questions or concerns about the given grades, students can contact the lecturer to request a review of the grade.

1. Appeals for a grade change to the lecturer should be initiated and completed by each student in a timely manner within the designated Grade Adjustment period. After the period elapses, all given grades become permanent, and no further changes will be possible.

2. Failing grades have been checked very carefully and appeals seldom result in higher grades except where a clerical error has occurred.
3. It is important to note that a student's request for grade review may be denied by the lecturer after evaluating the validity of the appeal.

## **N. Transcripts and Certificate of Completion**

The Office of International Affairs will send out transcripts free of charge for the exchange students upon completion of their study abroad term. Therefore, students who plan to study for 2 semesters will only receive their transcripts once they finish both semesters. 5. **Disadvantages for Nonpayment:** Restrictions on Health Insurance Benefits, Restrictions on Visa Extension, and Dispositions on Default (Please refer to previous email from the OIA regarding insurance, as well as p.9 of the NHIS brochure, for details).

“Restrictions of Visa Extensions” means that students will not be able to extend their study period at Chung-Ang University.

6. For inquiry: **NHIS Customer Service (1577-1000, dial 7 for information in foreign languages)** or **NHIS Foreign Language Consultation(033-811-2000)**

Please note that NHIS should be treated separately from any personal insurance that you may have purchased from your home country. Also, the NHIS is a mandatory insurance that the Korean government requires, and all questions regarding the insurance should firstly be directed to the contact information above.

### A. How to Claim Insurance if visiting Chung-Ang University Hospital

The Dongbu insurance plan is a refund/reimbursement based process:

1. Before receiving treatment, please visit the International Team which is located at the basement floor of the main building of the Chung-Ang University Hospital building.
2. If you are not able to find the International Team, please go to Customer Service Center located at the basement floor of the main building of the Chung-Ang University Hospital.
3. When paying for your treatment, tell them you are insured under through Dongbu Health Insurance that is provided through Chung-Ang University and show them your health insurance card. If you are paying for the treatment after seeing the doctor, please bring your bank booklet with you.
4. You will pay a flat co-pay and will not have to upload your treatment payment to the <http://n.foreignerdb.com/chungang1> website.
5. You can login with your Student number(ex. 5021\*\*\*\*) + password(111111).

## **B. General Information**

1. If you purchased the Dongbu Insurance and get sick, you should get treated at the CAU Hospital rather than another hospital. At the CAU hospital, you will only pay a single co-pay without the hassle of uploading many documents and waiting for the insurance company to refund you your deductible.
2. The maximum deductible per day is 250,000 KRW. Therefore, if you are going to go over the maximum deductible, you should split your treatments day by day so you can receive the full benefit of your insurance.
3. Make sure to read the coverage information and limit closely.

## **3. Medical Check-up**

Medical Check-up is mandatory for all exchange/visiting students living in the dormitory.

The TB test results should be administered 2 weeks prior to entering the dormitory. Send a scanned ENGLISH copy to [inbound@cau.ac.kr](mailto:inbound@cau.ac.kr) and bring that copy when you arrive to Korea.

From Spring semester 2021 onwards, students who pay their National Health Insurance Service will be covered for medical check-ups (for details please inquire to the NHIS).

**If you don't live in the dormitory, it is not required unless your nationality is one of the following 18 countries:** China, Sri Lanka, Russia (Federation), Uzbekistan, Thailand, Vietnam, India, Nepal, Indonesia, Pakistan, Mongolia, Bangladesh, the Philippines, Myanmar, Cambodia, Malaysia, East Timor, and Kyrgyzstan.

If your nationality is among one of the 18 countries mentioned, for your ARC you might be asked by the Immigration Office to provide a TB test result when you apply for your Alien registration card if you did not submit a TB test result when you applied for your student visa.

When you no longer need the card, return it to any card vendors to get the card deposit back and the money left. (\*Transfer discounts are for card holders only.)

#### B. Public Transportation

1. There are two subway systems surrounding CAU. The first subway station close to CAU, is Heukseok Station (흑석역) which is on Line #9. It is around a 15 minute walk from CAU to the subway station. The second station is Sangdo Station (상도역) on Line #7. It is about a 10 minute walk from the back-gate.
2. When coming back to Heukseok station on line #9, please make sure to differentiate between the express line and the normal line. The express line does not stop at Heukseok Station.

## I. Safety

Korea is a very safe country, and foreigners rarely feel any threat to their personal safety. The most common accidents are vehicle-related. All front-seat passengers are required by law to wear seat belts. Often, there are no seat belts in the back seats, but if there are, please try to wear a seat belt at all times. Incidents of mugging and other crimes involving personal assault are publicized in newspapers. Although these problems have increased in recent years, Korea is very safe compared to most countries. Nonetheless, it is recommended not to wander alone late at night, especially if you are a woman. Students should be careful in nightlife districts, where one might encounter someone who is drunk and more aggressive than usual. With all things considered, please use common sense.

While violent crime is rare, theft and pick pocketing are slightly more common (but not as notorious as in some European and other Asian countries). It is important to take precautions with passports, wallets, and purses, especially in crowded areas. The best way to safeguard a passport is to leave it at home. It is not necessary to have your passport with you unless you are conducting business, such as opening a bank account. Wallets should be kept in front rather than back pockets. Purses also should be hung in front where they are in sight.

Some students worry about threats posed by North Korea. While North Korea is commonly believed to be an armed and hostile state, it has very little impact on the daily lives of people in South Korea. Media coverage may imply a tense environment, but most people in South Korea are less worried about North Korea than about finding a parking space (2005 Time Magazine).

## 2. Climate

Korea is within the Temperate Zone and has distinct four seasons. Spring is from March to May with temperatures between 5 to 18 degrees Celsius. Summer is from June to August with temperatures between 22 to 30 degrees Celsius. Autumn is from September to November with temperatures from 21 to 26 degrees Celsius. Winter is from December to February with temperatures from -18 to 12 degrees Celsius.

For more information about the demographics of Korea search "Korea Factbook" to be directed to the CIA's website with Korea's demographics.

## 3. Food

There are a lot of different kinds of food in Korea. Kimchi is a traditional side dish that is served with a majority of dishes; even places like Pizza Hut have Kimchi. The famous and favorite traditional Korean foods for foreigners are bulgogi and bi-bim-bap. Many Korean dishes are very spicy and may contain a lot of garlic and/or onion.

### A. Traditional Foods

1. Kimchi : A standard Korean side dish, served with almost every meal. There are over 200 types of kimchi, the most common is made with cabbage fermented in garlic and a spicy sauce.
2. Bi Bim Bap : This traditional Korean dish directly means "Mixed rice" made with a mix of vegetables,

sometimes beef, chili pepper paste, and a fried egg, served with rice.

3. Pajeon : Known commonly as “Korean Pancake” made with eggs, flour, green onions, and often with seafood such as squid, cooked on a frying pan.
4. Budaе Jjigae : “Army Base Stew” was developed after the Korean War, a soup made with ramen, ham or sliced hot dogs, vegetables, and a spicy sauce.
5. Bulgogi : Bulgogi is made of thin beef slices. The meat is marinated with a mixture of soy sauce, sugar, sesame oil, garlic and other ingredients such as onions or mushrooms.

There are a wide variety of dishes that are incredibly inexpensive in Korea. A full meal of Korean food at a restaurant only costs about 5,000 to 8,000 KRW, which is only about \$4 to \$7 USD. Tipping is also not required at any location and is seen as an insult in Korean culture.

## **B. International Food**

If you are craving food from your home country or other international foods such as American food, locations of Gangnam, Hongdae, and Itaewon offers a variety of international food. Many of the established international restaurants in Korea have a website and you can speak to them over the phone in English for locations over the phone. However, please be wary that international food in Korea is typically two to three times more expensive than their average cost. For example, you can expect to pay up to 15,000 KRW for a single burger in Itaewon.

## **4. Exercise**

Many students use the gym in the dormitory for lifting weights, running, and stretching.

The Han River is a ten-minute walk from the main gate of campus. Many students also like to run, jog, or walk to enjoy the beautiful scenery of the Han River and Seoul. Free bike rentals are also available near the river to enjoy for both Korean and foreign students.

Hiking is also a favorite activity in Korea. The best time to go hiking is during the Fall season because of the beautiful trees and scenery. There are many mountains and trails to adventure off in. It is certainly something everyone should experience during their stay in Korea.

Additionally there are also gyms (pg. 25) that students may utilize. The Blue Mir Hall also houses a gym for students who live in the dormitory.

## B. Grocery Shopping

At Seoul campus, there is a local grocery store located near CAU called E-mart where you can purchase basic foods and products. This store mainly sells Korean goods and therefore it will be difficult to find foreign goods. If you are looking for foreign goods and products, you can take Bus 151, in front of the Chung-Ang University hospital to Yongsan station for a larger E-Mart location. Here you can find many things you may miss from your home country.

There is a drugstore called "Watsons" or "Olive Young" near the front gate of campus. Here you can purchase basic necessities (shampoo, soap, lotion, medicine, make-up). This store is more convenient and cheaper compared to most drugstores.

## C. Clothes Shopping

Korea is famous for its shopping districts of Dongdaemun and Myeongdong where they sell non-designer clothes that follows the latest shopping trends. You can usually barter with the store owners to try to get a lower price. However keep in mind: Store owners and employees usually speak a limited amount of English. Some stores sell counterfeits/imitations which can be confiscated by customs when leaving Korea. Most stores usually do not contain fitting rooms so you may not be able to try on the clothes.

Korean department stores sell most internationally recognized brands as well as Korean brands. Since it is a department store, prices can not be bartered. Keep in mind is that Korea has a high import tax so buying imported clothes may be more expensive than from buying in your own country.

If you are ever the victim of a break-in and/or theft, you should dial 112 immediately. Do not enter the crime scene, as it will need to be preserved and examined by police.
2. Snatching and Pickpocketing

Although crime rate is low in Korea, that does not mean Korea is entirely without crime. Use common sense in Korea, be aware of the sound of motorbikes approaching, keep your belongings away from the road and close to you.
3. Crossing the Street

In Korea, cars have the right away, not people. Make sure you are crossing in the correct area and at the correct time. Most of all, be careful!
4. Finding Lost Items

If you come across a lost item on the street, you should put the lost item in a mailbox and report to the police. If you come across a lost item in a business, station, ect. you should surrender the item to the staff/officers.
5. Involving Automobiles

Driving without a license will result in a fee. Failure to wear a seatbelt carries a fee of 30,000 KRW. Failure to wear a helmet on a motorbike will result in a fine of 20,000 KRW.

## 8. Dealing with an Emergency

In an emergency situation, dial 112. It is important to describe where, when, how, and be able to describe the perpetrator. For traffic accidents, making sure all parties are safe is the first step. Then, make sure to take photographs to preserve the scene. Then make a police report and notify insurance \ companies of the situation.

## 9. Sexual Harrassment

Sexual harassment is defined as actions or words with sexual intentions that are unwanted and make a person feel uncomfortable. It can include but not limited to the following:

1. Repeatedly asking to hang out one-on-one or to go out on a date even after being told "no" or being rejected
2. Demanding or making unnecessary physical contacts (e.g. hugging and resting hand on shoulder)
3. Constantly watching or staring at the person without his or her consent

5. Sharing pornographic contents (including pictures, cartoons, and/or comics via online or in-person)

At Chung-Ang University, we take sexual harassment complaints very seriously. If you ever feel that someone is making you feel uncomfortable in this manner, please let the Office of International Affairs know about this as soon as possible so we can help create a safe environment, and a fun semester for everyone.

## 10. Sexual Crime

If you are a victim of sexual crime, dial 117, or 1366. After consulting the operator, the victim must go to a One-Stop center or Emergency Center. It is incredibly important that the victim does not wash themselves, as everything is evidence. The victim will need to describe characteristics or all memories relevant to the perpetrator or event in a report. Any bruises or injuries will be photographed. Underwear worn during the crime or any related evidence will be surrendered to the police.

# Etiquette & Basic Manners in Korea

## 1. Korean Cultural Roots

Korean ideals mainly derive from Confucian traditions. The Five Codes and the Three Bonds or Principles that affect relationships among people are:

The Five Ethical Codes (Oryun)

1. Righteousness and justice between governors and the citizens
2. Distinction (different roles) between a husband and a wife
3. Order (respect and protection) between the young and the old
4. Closeness (love) between parents and a child
5. Trust between a friend and friend;

The Three Principles (Samgang)

1. Loyalty to government and country
2. Filial piety toward one's parents
3. Fidelity and chastity in marriage.

Almost every relationship (except between friends) is based on the idea that one person is of higher status. The person of lower status is expected to respect and obey, and the person of higher status is supposed to look after and protect the one of lower status.

## 2. Basic Manners

### A. Bowing

- Bowing is the traditional Korean greeting, although it is often accompanied by a handshake among men. To show respect when shaking hands, support your right forearm with your left hand underneath your elbow area.
- Korean women usually nod slightly and will not shake hands with Western men. Western women may offer their hands to a Korean man.
- Bow when departing. Younger people wave.

### B. Titles & Names

- Korean names are arranged opposite of Western names with the family name first, followed by the two-part given name.
- Do not call people older than you by their first names unless you're long-time friends or they say otherwise. Address people as Mr. Lee or Mrs. Kim instead.
- Brothers and sisters never call one another by their given names. They say "older brother," "older sister," "younger brother," and/or "younger sister."
- Never use red ink when writing a living person's name.

### C. Body Language

- Koreans consider it a personal violation to be touched by someone who is not a relative or close friend. Avoid touching, patting or back slapping a Korean.
- Do not cross your legs or stretch your legs out in front of people older than you. Keep your feet on the floor, never on a desk or chair.
- Always pass and receive objects with your right hand (supported by the left hand at the wrist or forearm) or

with two hands.

- To beckon someone, extend your arm, palm down, and move your fingers in a scratching motion. Never point a person with your index finger.
- Koreans often smile to show embarrassment, or sorriness. Smile and gently laugh along, which is a way to accept their apology.

#### D. Hosting

- When going to a restaurant, Koreans are gradually getting the idea of splitting the bill, but it is still pretty rare. Usually you will be hosted, especially with Koreans older than their 20s.
- The person who invites usually pays the bill for everyone, but it is polite to offer to pay.
- Your Korean friends will be eager to treat you for the first time. You are expected to return the favor later.

#### F. Table Manners

- There is generally a main dish and several side dishes. Except for the rice and soup which are served in bowls for each meal, side dishes are used communally.
- Do not leave your chopsticks in the rice bowl as this is only done for offerings to the deceased.

#### G. Others

- Shoes are not worn inside Korean residences.
- Be ready to accept less "personal space." It's pretty common for Koreans of the same gender to stand close together when talking or walking.
